

117TH CONGRESS
2D SESSION

S. 3881

To direct the Secretary of Education to award grants to eligible entities to carry out teacher leadership programs, and for other purposes.

IN THE SENATE OF THE UNITED STATES

MARCH 17, 2022

Mr. LUJÁN introduced the following bill; which was read twice and referred to the Committee on Health, Education, Labor, and Pensions

A BILL

To direct the Secretary of Education to award grants to eligible entities to carry out teacher leadership programs, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 SECTION 1. SHORT TITLE.

4 This Act may be cited as the “Teachers Leading,
5 Educating, Advancing, and Designing Act of 2022” or the
6 “Teachers LEAD Act of 2022”.

7 SEC. 2. FINDINGS.

8 Congress finds the following:

9 (1) Decades of research have shown that teach-
10 ers are the single most important school-based factor

1 in student achievement, and an analysis by the
2 Brookings Institution indicates that a high level of
3 teacher turnover is negatively associated with stu-
4 dent achievement, and is higher in urban schools
5 and schools with more economically disadvantaged
6 students.

7 (2) A report by the National Commission on
8 Teaching and America's Future estimated that dis-
9 tricts spend between \$10,000 and \$17,000 for each
10 teacher who leaves the district, making teacher turn-
11 over and attrition a costly issue for school systems.

12 (3) The United States education system is ex-
13 periencing an ongoing teacher recruitment, reten-
14 tion, and shortage crisis. According to a National
15 Education Association survey in January of 2022,
16 55 percent of all teachers, 62 percent of Black
17 teachers, and 59 percent of Hispanic or Latino edu-
18 cators said they were more likely to retire early or
19 leave the profession.

20 (4) In the same survey, 74 percent of teachers
21 report having to fill in for colleagues or take on
22 other duties due to staff shortages, while 90 percent
23 of respondents pointed out that teacher burnout is
24 becoming a very serious issue. As a Nation, we face

1 the possibilities of vacancies and educator burnout
2 being exacerbated by educator shortages.

3 (5) An analysis by the Economic Policy Insti-
4 tute of teacher turnover data suggests that low sala-
5 ries, lack of professional development opportunities,
6 and a difficult school climate, including lack of
7 teacher input into school policy, are common factors
8 behind teachers leaving the workforce.

9 (6) According to a report by Teach Plus and
10 the Education Trust, teachers of color, who, on aver-
11 age experience higher turnover rates, report that
12 they have considered leaving the profession because
13 they lack agency, autonomy in decision making, and
14 opportunities for leadership.

15 (7) Studies show that all students benefit from
16 having racially diverse teachers. These benefits are
17 magnified for students of color, who experience im-
18 proved academic performance, higher graduation
19 rates, and increased interest in pursuing higher edu-
20 cation.

21 (8) Teachers of color are underrepresented in
22 schools, with only 20 percent of the teacher work-
23 force identifying as people of color versus over 50
24 percent of public school students. Teachers of color
25 are also more likely to teach in schools that serve a

1 high proportion of students of color, in schools that
2 are underresourced, and in schools that have higher
3 overall teacher turnover rates.

4 (9) Studies show that there is a positive link
5 between professional leadership opportunities, job
6 satisfaction, and retention of classroom teachers,
7 and that compensation for teachers' added leader-
8 ship responsibilities increases teacher retention.

9 (10) In a Gates Foundation Survey, only 12
10 percent of all teachers surveyed reported receiving
11 consistent job-embedded mentorship and professional
12 development from veteran teachers, despite multiple
13 studies showing that consistent mentorship improves
14 student learning.

15 (11) The New Teacher Project found that only
16 26 percent of high-performing teachers agreed that
17 their school leadership identified opportunities or
18 clear paths for teacher leadership roles.

19 (12) According to a report by Teach Plus and
20 the Education Trust, teachers' investment in their
21 schools and their likelihood of retention is greater
22 where opportunities exist to innovate and advocate
23 on behalf of students, especially when a teacher acts
24 in partnership with school and district administra-
25 tion to address student and teacher needs.

(13) Structured leadership programs are an effective way to help combat the nationwide teacher shortage and improve teacher retention by empowering teachers and establishing formal peer mentorships between effective and experienced teachers and those just entering the profession, which also leads to academic and socio-emotional benefits for students.

9 (14) Federal policies are needed to encourage
10 and fund the establishment of structured leadership
11 programs at public schools, especially in high-need
12 schools and school districts.
